BOSTON GETS NEXT REUNION MILLER CASE A PRECEDENT

MEETING OF THE AUXILIARY ADMINISTRATION'S FUTURE SOCIETIES.

C AN FRANCISCO, Aug. 20.-The

C. Black of Illinois.

Grand Army of the Republic to-day selected Boston as the place

O YSTER BAY, Aug. 20.—President Roosevelt has made applicable to in which the encampment of 1904 will service the principle he enunciated at be held, and elected the tollowing of- the time he reinstated William A. Mil-Commander-in-chief-General John printing office from which Miller had Senior Vice Commander—Colonel C.
Mason Keene of California.

Junior Vice Commander—Colonel
Harry C. Kessler of Montana.

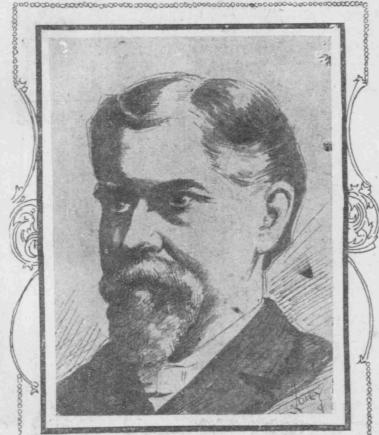

been dismissed because of a disagreement with the bookbinders' union. The president has plainly stated to the members of his cabinet that that prin-

ler to the position in the government been dismissed because of a disagree-Junior Vice Commander—Colonel larry C. Kessler of Montana.

Surgeon-in-chief—George A. Harmon f Ohio.

Chapiain-in-chief—Winfield Scott of prizona.

The only contest in the election of July 22. The letter was signed by Mr.

stitute of Art. In the evening there was a reunion and dog watch by the naval reserve which, during the day. had paid a visit to the Mare Island navy yard. The commander-in-chief was received by the ladies of the Grand Army in Union Square hall and the Women's Relief Corps, department of Massachusetts, had a reunion in Golden Gate hall. All of the social functions were well attended

Were well attended Elected By Acclamation.

General John C. Black of Illinois was sominated by Past Department Commander Lawler of Illinois for the office of commander-layer of Kentucky and Forrance of Minnesota. Under suspension of the rules. General Black was elected by acclamation. He addressed he encampment. Saying:

"I shall do in all ways whatever I can be supported by acclamation. He addressed he encampment. Saying:

"I shall do in all ways whatever I can be supported by acclamation. He addressed he encampment is your representative to advance the says of commander and country. I know how weak any man is in the presence of the majesty of the American people, but when I speak with your voices I believe that all the people will hear and will accorded the demonstrating this principle the president wrote:

"It is, of course, more elementary decency to require that all government departments shall be handled in accordance with the principles thus clearly and fear-lessly enunciated."

PROFESSOR LOEB HAS

SOLVED A PROBLEM

San Francisco, Aug. 20.—Announcement is made that Professor Jaques Loeb, in a series of experiments he has just completed at the University of California.

General John C. Black was

so your representative to advance the cause of comrade and country. I know how weak any man is in the presence of the majesty of the American people, but when I speak with your voices I believe that all the people will hear and will accord that which you request."

General Miles' Address.

Following the selection of the city of Boston as the place for holding the next encampment, General Miles was called to the stand for a brief address.

General Miles said in part: "This is one of the most enjoyable events of my life. There is no company more dear to me than that of the brave men who saved this nation. It is an inspiration to the people of this country to see their heroes moving from every quarter of this country to this grand reunion, and it has been an inspiration, a revelation and a consolation to you to realize that this is our country, saved by your valor, fortitude and sacrifice. Never was a war fraught with such sacrifice and never a war endeds ogloriously. When peace came, when the two contending armies had fought it out for the principles that they believed to be right, the hands of brave men were clasped, and they were brothers again, and henceforth and forever will be one pation from ocean to ocean and from the lakes to the guif.

General Miles was called to the city of the most enjoyable events of my life. From these experiments he has just commission of experiments he has just commission of experiments he had the professor Jaques Loeb, in a list of experiments he had just commission of experiments he had just commission of experiments he had the professor Jaques Loeb, in a list of experiments he had the professor Jaques Loeb, in a list of experiments he had just commission of experiments he had just commission of experiments he had the professor Jaques Loeb, in a list of experiments he had just commission of experiments he had just commission of ex

LADIES OF THE G. A. R.

Meeting.

San Francisco, Aug. 20.—The Ladies of the Grand Army of the Republic opened their national convention today in Union Square hall. The attendance was large and the utmost harmony prevailed. The session was opened by National President M. Anna Hall, who in a few words told of the plans of the order, which she said had prospered beyond expectations. A number of new circles have been established during the year and all are prosperous. In referring to the fact that her ten months of service as head of the organization were drawing to a close, Mrs. Hall feelingly expressed her thanks to all who had assisted her.

For the purposes of the convention, it was filled here today by the interest police court today by offering a fervent prayer for mercy. The jury, after a few minutes, found Francis guilty and fined him \$5. The prisoner leaped with him \$5. The + street police court today by offer- +

No Discrimination.

In the letter of the 14th the president quoted the finding of the anthracite strike commission regarding the employment of labor as follows:

"It is adjudged and awarded that no person shall be refused employment or in any way discriminated against on account of merobership or non-membership in any labor organization, and that there shall be no discrimination or interference with any employe who is not a member of of any labor organization by members of such organization."

Concerning this principle the president wrote: New York, Aug. 20.—Alfred Crosby Owen, 28 years old, who says his home is in Washington, was locked up at police headquarters today, charged with passing two worthless checks at the Waldorf-Astoria. The police believe they have the man who has been spending the last few weeks in the west chartering special trains and posing as the son of Stephen B. Elkins, Ir., Owen took a suite at the Waldorf-Astoria vesterday and Manager Boldt cashed for him a check for \$50 drawn on the Elkins National bank and signed by S. B. Elkins.

"I am Senator Elkins' son, and I am allitle short of ready cash," he said. He went from there to the Fifth avenue hotel and engaged a room. The clerk at that hotel cashed a check for \$5 to "self," signed S. B. Elkins, ir, and drawn on the cleashed a check for \$5 to "self," signed S. B. "I am Senator Elkins' son, and I am a little short of ready cash," he said. He went from there to the Flith avenue hotel and engaged a room. The clerk at that hotel cashed a check for \$5 to "self," signed S. B. Elkins, jr., and drawn on the Elkins bank.

When arrested Owen simply said that he was well acquainted with Senator Elkins and his son, and that he would get out of the trouble all right. He claims to have been a lieutenant in the United States navy, having graduated from Annapolis in 1897. The police say that Owen was dismissed from the navy in December, 1902, on charges of failing to pay debts.

VESSELS WENT DOWN DURING HURRICANE

Mobile, Ala., Aug. 20.—A cablegram was received here today from the captain of the steamship Brattan, dated Puerto Cortez, saying the American bark John R. Stanhope had been lost in the great storm which swept the island of Jamaica, but that the crew had been saved. The vessel and cargo were insured. Fears have arisen for the safety of the British, three-masted schooner G. E. Bentley, which cleared from Mobile July 22 for Clenfuegos. On board were the remains of Captain John Wood of the schooner and his brother-in-law, Mr. Eden, which were being taken to Grand Cayman' for reinterment. The family of Captain Wood and the wife of Captain Rennesien, in command of the ship, were also on board. The vessel should have been reported from her destination more than a week ago. was deet, when the engine suddenly startin o?

RUSSIAN STRIKERS KILLED BY COSSACKS

London, Aug. 21.—A dispatch from Nikolalev to the Daily Mail, dated Aug. 21. confirms the previous report of a núlitary onslaught on a crowd of strikers at Kieff Aug. 11. The dispatch says the conflict arose out of a decision of the strikers to hold a mass meeting on the Chernigov side of the Dnieper. Five thousand men were permitted to assemble in Kieff and had begun to embark on boats to cross the river, when the military appeared and the strikers were called upon to disperse. The mob stoned the Cossaeks, who thereupon fired three volleys and then madly charged, scattering the crowd in all directions. Between twenty Lord Salisbury's condition was critical and there was little hope of his recovery.

The end may be expected at any of the course moment. Once in the course of the evening it was thought that his lordship had already breathed the

H. P. Myton Promotes Big Utah First Race For the America's Irrigation Project.

AMOUNT INVOLVED \$1,000,000 WIND FAILED THE SAILORS

O VET 100,000 acres of land in Emery and Grand counties

Gunnison buttes and the San Rafael river, away to the southward. Alto-gether there will be 85,000 feet of flumes and 180,600 feet of canals. It will be necessary to carry water about twenty miles by flume and canal before it can be used for irrigation.

Much Fertile Land.

Much Fertile Land.

"There is a large amount of highly fertile land there which will be irrigated." said Major Myton last evening. "Only the land on the west side can be brought under water for some distance below the canal, but farther down we expect to flume the water across the river and irrigate land on the east side. The project does not contemplate utilizing the Carey act. The land will be purchased from the state and the water will be appropriated. The land will be purchased outright, and sold to settlers."

Major Myton is the Utah representative of the townsite company connected with the Moffat road. He declares the irrigation project is entirely separate from the other, however. Nevertheless, it is understood that the Moffat road will build a branch to the region after it is opened up. The Rio Grande runs directly through it, so there is likely to be competition for the business.

Spring in The City.

Spring in The City.

Another interesting application for water has been made with the state engineer. The new Utah Ice & Cold Storage company has appropriated the water from a spring in the heart of the city that has been the cause of more or less discussion by the city officials for several year. The spring was tapped some PHILADELPHIA, Aug. 20.—A special to the Evening Telegram from Wilmington, Del. says:
In the United States circuit court to day George Whirts. Pepper of Philadelphia, receiver of the Bay State Gas company of Delaware, filed a bill of complant against J. Edware Addicks. United States Senator J. Frank Alee and others, alleging fraud in connection with a transaction involving the stock of the complany, said to be valued at \$25,000,000. The bill charges the defendants be offendants as directors, except Addicks, with entering into an unlawful combination to issue to Addicks but to another manibility on the order of Addicks but to another manibility on the order of Addicks but to another manibility of the course was set fifteen miles southwest, straight down the Jersey southwest, and the vicinity of the courts was several verse. The surfle several years. The spring was tapped south and Second West where was found to be pure but the the state of the alleged than and loss, the defendants be rothered to pay an amount equivalent to the several blocks westward. Iron County Water.

Iron County Water.

Colonel S. B. Milner has applied for two second feet (a flow of two cubic feet each second or 1,289,000 gallons every twenty-four hours) from various small springs in Iron county, the water to be used in connection with his from mining operations in that vicinity. Reservoirs are to be built to store the water until it is needed to make steam or to use for domestic or other purposes.

Daniel T. and Jacob F. Miller of Logan have applied for fifty second feet of water to be taken from Bear river, near Collinston, for irrigation purposes. Electric pumps are to be used to raise the water to a level from which it will flow readily into the caual and ditches.

The Maxfield Mining company has applied for sixty second feet of Big Cottonwood water, to be used for mining, power and light purposes. James W. Neil has applied for six cubic feet from Bingkam creek to be used for granulating and conveying slag and cooling the jackets of the new Yampa smelter.

From the Waw Waw Springs.

The Newhouse Mines & Smelters corporation has appropriated four second feet from the Wah Wah springs in Beaver county to be used for smelting, domestic and other purposes. Although the company bought the springs and the land which was under irrigation from the water, the law required a record from the state engineer because the purpose for which the water was to be used was changed.

Sooner had the Shamrock III filled than the Reliance born down upon her from a windward position and hauled on the wind alongside of her in a position to blanket the challenger. Capitali Wringe promptly wore ship and bore away from the Reliance, refusing to take part in the brush.

The New York Yacht club regatta committee's turg established a line be-

for which the water was to be used was changed.

Milando Pratt has applied for twenty second feet from Farmington canyon creek and F. M. Lyman, jr., for twenty feet from Mill creek, to be used for power purposes. The object is to utilize the power for the new electric road which Senator Smoot and others are promoters.

The Mt. Baldy Mining, Milling & Water Power company has applied for 416 second feet to be taken from the Sevier river near Marysvale and to be used for power and in ore-dressing and other ways. For a similar purpose Frank Worthing has applied for twelve second feet from the right and left forks of Ophir creek in Tooele county.

For Electric Power.

For Electric Power.

iny is taking steps to secure 56-100 but the lifeet from Markham guich and position. Official the water to be used for mining Shamroc

MANY APPLICATIONS FOR LIPTON SEEMS DOOMED TO BE AGAIN DEFEATED.

and Grand counties are to be re-claimed by a great irrigation ne which Major H. D. Young and State of Sightseers and yachtsmen that claimed by a great irrigation scheme which Major H. P. Myton is promoting. The appropriation of water from Green river has been filed with State Engineer A. F. Doremus, and negotiations are pending for the purchase of a large tract of state land. The enterprise will entail the expenditure of about \$1,000,000, which men living in Denver and the east have agreed to furnish.

The application for the water filed with the state engineer contains the names of Adolphus B. Capon, Henry T. Dubbs and Oliver 'S. Buel of Denver and H. P. Myton of Salt Lake. The appropriation is for 1,500 second feet of water, to be diverted from Green river near the head of Box canyon, twenty-two miles north of Elake, or Green River station, on the Rio Grande. It is proposed to construct a large masonry dam and to conduct the water through flumes and canals for the irrigation of the rich fruit lands between Gunnison buttes and the San Rafael river, away to the southward. Alto-

Fife's latest creation has been her-alded as a wonder in light breezes in windward work, and especially with a jumpy sea on, while the Reliance on today, with a breeze varying from one to twelve knots, and against a long ground swell, the defender outfooted and outpointed the Shamrock III. The Shamrock did not turn the outer mark, and there is, therefore, no way of knowing absolutely how badly she was beaten, but it was estimated that she was more than a mile astern, or about sixteen minutes, in the existing strength of the wind, when the Reliance rounded.

ance rounded.

As a result of the trial the experts, believe that, blow high or blow low, the Reliance will win this, the thirteenth series for the America's cup.

A Miserable Day.

The day was a miserable one. A mist lay over the city and bay in the morning, and when the great fleet of excursion steamers, steam yachts, tugs excursion steamers, steam yachts, tugs and sailing vessels reached the starting line, where the racers were already jockeying for position, threatening clouds were gathering over the Jersey highlands. The breeze was not over six knots.

The course was set fifteen miles southwest, straight down the Jersey coast and return. At the start Captain Barr cleverly outgeneraled Captain Wringe, sending the Reliance over the fine thirty-three seconds behind

bound, when it became apparent that
the race could not be finished in the
time allowance, and the regarta committee boat at 3:45 fired the signal
which declared the race off.
The work of the patrol fleet was perfect. Moving at right angles, line
ahead and line abreast, the revenue

cutters kept the yachts in the hollow of a moving angle, as free from inter-ference as if they had been sailing in

Under the rules the first race, fifteen miles to leeward or windward and return, is now postponed until Saturday.

DETAILS OF THE RACE. Admirers of the Defender Are More Than Jubilant.

New York, Aug. 20.—The Reliance reached the starting line at 10 a. m., and dropped her tow line. The Shamrock III arrived ten minutes later. No sconer had the Shamrock III filled

take part in the brush.

The New York Yacht club regatta committee's tug established a line between the Sandy Hook lightship and herself at 10:30 a.m., and signaled that the race would be fifteen miles to windward and return, the first leg south-southwest. The wind was then blowing about five knots.

The Start Made.

There was a moderate sea running in long ground swells, and the boats were pitching rather heavily. The conditions were unfavorable to the Reliance, judging from her early trials. The Shamrock III was expected to have the advantage in the light wind and rough water conditions prevailing. The C. C. Goodwin, H. B. Cole and W. M. White have asked for fifty second feet to be taken from Beaver river seven miles east of Beaver City. This is to be used for electric power, and it is understood that it may be utilized for the electric road Colonel Henry Altman has been promoting.

The Butler-Liberal Consolidated Mining company is taking steps to secure 56-100 second feet from Markham guich and consolidate held the windward position. Official starting time:

Both boats sailed seaward for an hour and twenty minutes. The wind dropped to about four knots soon after the start. Within twenty-five minutes after the starting the Reliance had overhauled the Shamrock III and was abeam of her and 200 yards to wind-ward. The Reliance had not only foot-ed faster, but pointed higher than the challenger, and was showing that un-der conditions supposed unfavorable to her she was the better boat. Half an hour after the start, when the boats were about four miles from the startwere about four miles from the start-ing line, rain swept across the course and obscured the yachts from all ob-servers except those very close. The shower brought a shift of wind to the westward, which enabled the racers to lay a course direct to the mark. This robbed the Rellance of most of the ad-vantage of her windward position and

the tunnel on the B. F. Butler mining claim, the waiter to be used for mining and domestic purposes. For power and mining D. H. Peery has asked for water from Peruvian gulch. White Pine gulch and from the W. J. Bryan tunnel in and around Alta. There is likely to be a protest on this. There is likely to be a protest on this. There is likely to be a protest on this. There is likely to be a protest on this. There is likely to be a protest on this. There is likely to be a protest on this. There is likely to be a protest on this. There is likely to be a protest on this. There is likely to be a protest on this. There is likely to be a protest on this. There is likely to be a protest on the Columbus Consolidated Mining company of twelve feet from Little Cottonwood creek. James A. Faust of Ivanpah seeks thirteen cubic feet from Grapite Canyon creek, Juab county, for irrigation purposes. The Iosepa Agriculture & Stock company asks for five second feet from the Deep springs in Skull valley, while George F. Palmer and Frank Gooch seek to make the same appropriation. The application of Salt Lake City for fifteen feet of the underground flow of Emigration creek is also on file. A number of of persons have forfeited their rights by putting up notices on the streams instead of making application to the state engineer, as required by the new law since May 12. Reliance Showed Well.

PLEA FOR THE HUMBERTS. Paris. And 20.—Maître Labori today continued his plea in defense of the Humberts, which was not concluded. The case will reach the jury tomorrow night or Eaturday.
